

THE Image Inks [®] COMPANY

908 East Franklin Street
Evansville, Indiana 47711

Phone: (812) 468-8727
Fax: (812) 468-8747

Statements of Compliance

Based on the information issued to us by our suppliers, The Image Inks® Company can state that our UV printing inks, when used properly, comply with parts of the following regulations: Title 21, Code of Federal Regulations (CFR), Part 174, entitled Indirect Food Additives, and the American National Standards Institute (ANSI) regulation Z-66, and Title 16, Code of Federal Regulations (CFR). Part 1303, the act to amend the environmental conservation law in relation to hazardous packaging legislation introduced in 1990, for the state of New York. Our UV printing inks do not contain phthalates or phthalate derivatives.

The UV ink supplied by The Image Inks® Company is not a food additive and does require a barrier between the ink film and the food packaged. UV ink, when fully cured becomes 100% inert polyfilm.

The Image Inks® Company will not knowingly distribute products, which are not in compliance with general rules and regulations specifically pertaining to printing inks. UV printing inks distributed by The Image Inks® Company may contain the following trace heavy metals.

Leads	(total)	less than	25 PPM or 0.000025
Antimony	(soluble)	less than	25 PPM or 0.000025
Arsenic	(soluble)	less than	25 PPM or 0.000025
Selenium	(soluble)	less than	25 PPM or 0.000025
Cadmium	(total)	less than	25 PPM or 0.000025
Mercury	(total)	less than	25 PPM or 0.000025
Barium	(soluble)	less than	25 PPM or 0.000025
Chromium	(total)	less than	25 PPM or 0.000025

Statements herein do not absolve the user from determining whether or not the UV inks distributed by The Image Inks® Company are suitable for use in their process. Warrantees and/or guarantees are neither expressed nor implied.
